Please Support our PAC Fund

- It is the most effective way to get pest management issues in front of elected officials.
- It is the only collective voice that will speak on your behalf to the people who pass laws that regulate your business.
- Through the support of the fund, NYPMA governmental affairs committee is able to work with lobbyists to help create and sponsor bills to further the interests of PMP's.
- Contributions help by supporting our annual Legislative Day and getting our collective voice to the ears of legislators.
